Patient Authorization regarding chiropractic care and physiotherapy, being provided in an “open treatment” environment...

It is the practice of this office to provide health care in an “open treatment” environment. “Open treatment” involves several patients being in the same room at the same time. Patients are within sight of one another and some ongoing routine details of care are discussed within earshot of other patients and staff. This environment is used for ongoing care and is NOT the environment used for consultation, history taking, performing examinations or presenting reports of findings. These procedures are completed in a private, confidential setting.

We are requesting this authorization of you due to various interpretations under federal law with respect to what is known as an “incidental disclosure” of health information. It is our view that the kinds of matters related in an “open treatment” environment are incidental matters, in the event you or someone else would not agree with us, we are providing this disclosure.

The use of this format is intended to make your experience with our office more efficient and productive, as well as to enhance your access to quality health care and health information. If you choose not to be treated in an open treatment environment, other arrangements will be made for you. Your decision will have no adverse effect on your care from Dr. Koster or on your relationship with our staff.

Your signature indicates your authorization of this activity.
